02 Executive Summary

The architecture audit scored 68/100 (Grade C), identifying 10 findings across the codebase. Of these, 0 are critical severity, 10 are high, 0 are medium, and 0 are low.

The primary risk areas are: security (10 findings).

Immediate Actions Required

1. Address BLK-001: Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.
2. Address BLK-002: Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.
3. Address BLK-003: Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.

04 Critical Findings

▾ high BLK-001 **Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.**

blanketaudit / blanket-arch-audit-v2/tests/fixtures/fixture-injection-attack/injection_comments.py:29-29

```
api_key = "sk-proj-abc123def456"
```

Static analysis tool 'gitleaks' flagged this issue. Gitleaks found a potential secret (generic-api-key) in the source code.

Recommended Fix

```
# Remove hardcoded secret and use environment variables instead
```

Estimated effort: 1.0h

▾ high BLK-002 **Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.**

blanketaudit / blanket-arch-audit-v2/tests/fixtures/fixture-pci-fail/payment_processor.py:29-29

```
API_KEY = "sk-live-abc123def456"
```

Static analysis tool 'gitleaks' flagged this issue. Gitleaks found a potential secret (generic-api-key) in the source code.

Recommended Fix

```
# Remove hardcoded secret and use environment variables instead
```

Estimated effort: 1.0h

▾ high BLK-003 **Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.**

blanketaudit / blanket-arch-audit-v2/tests/golden/test_report_output.py:120-120

```
STRIPE_API_KEY = "sk-live-abc123def456"
```

Static analysis tool 'gitleaks' flagged this issue. Gitleaks found a potential secret (generic-api-key) in the source code.

Recommended Fix

```
# Remove hardcoded secret and use environment variables instead
```

Estimated effort: 1.0h

▾ high BLK-004 **Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.**

blanketaudit / blanket-arch-audit-v2/tests/unit/test_policy_firing.py:144-144

```
api_key = "sk-proj-abc123def456"
```

Static analysis tool 'gitleaks' flagged this issue. Gitleaks found a potential secret (generic-api-key) in the source code.

Recommended Fix

```
# Remove hardcoded secret and use environment variables instead
```

Estimated effort: 1.0h

▾ high BLK-005 **Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.**

blanketaudit / blanket-arch-audit-v2/tests/unit/test_tool_integration.py:192-192

```
API_KEY = "sk-1234567890abcdef"
```

Static analysis tool 'gitleaks' flagged this issue. Gitleaks found a potential secret (generic-api-key) in the source code.

Recommended Fix

```
# Remove hardcoded secret and use environment variables instead
```

Estimated effort: 1.0h

▾ high BLK-006 **Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.**

blanketaudit / blanket-arch-audit-v2/tests/unit/test_tool_integration.py:193-193

```
Secret": "sk-1234567890abcdef"
```

Static analysis tool 'gitleaks' flagged this issue. Gitleaks found a potential secret (generic-api-key) in the source code.

Recommended Fix

```
# Remove hardcoded secret and use environment variables instead
```

Estimated effort: 1.0h

▾ high BLK-007 **Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.**

blanketaudit / blanket-arch-audit-v2/tests/unit/test_tool_integration.py:202-202

```
Secret": "AKIA1234567890"
```

Static analysis tool 'gitleaks' flagged this issue. Gitleaks found a potential secret (generic-api-key) in the source code.

Recommended Fix

```
# Remove hardcoded secret and use environment variables instead
```

Estimated effort: 1.0h

▾ high BLK-008 **Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.**

blanketaudit / blanket-arch-audit-v2/tests/unit/test_tool_integration.py:220-220

```
secret="sk-1234567890abcdef"
```

Static analysis tool 'gitleaks' flagged this issue. Gitleaks found a potential secret (generic-api-key) in the source code.

Recommended Fix

```
# Remove hardcoded secret and use environment variables instead
```

Estimated effort: 1.0h

▾ high BLK-009 **Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.**

blanketaudit / blanket-mcp/db/sample_data.txt:14-14

```
key example: grx_a1b2c3d4e5f6g7h8i9j0k1l2m3n4o5p6
```

Static analysis tool 'gitleaks' flagged this issue. Gitleaks found a potential secret (generic-api-key) in the source code.

Recommended Fix

```
# Remove hardcoded secret and use environment variables instead
```

Estimated effort: 1.0h

▾ high BLK-010 **Secret Detected: Detected a Generic API Key, potentially exposing access to various services and sensitive operations.**

blanketaudit / blanket-mcp/docs/local-deployment.html:393-393

```
api_key="blk_a1b2c3d4e5f6g7h8i9j0k1l2m3n4o5p6"
```

Static analysis tool 'gitleaks' flagged this issue. Gitleaks found a potential secret (generic-api-key) in the source code.

Recommended Fix

```
# Remove hardcoded secret and use environment variables instead
```

Estimated effort: 1.0h

09 Audit ROI & Benefits

Time Saved vs. Manual Audit

Files analyzed	236
Estimated manual audit time	118 hours
Automated scan time	
Findings identified	10

Financial Risk Exposure

0 critical and 10 high severity findings were identified before reaching production.

Addressing these findings proactively avoids potential breach costs, regulatory fines, and incident response expenses. Estimated remediation effort: 10.0 hours.
